

SMALLEST BIBLE IS AT MUSKOGEE

Doctor Stolper Claims
His Book Is the
Tiniest of All

BUT 5-8 INCH LONG

Magnifying Glass Required
to Read Holy Book; 1-4
of an Inch Thick

By The Associated Press.

MUSKOGEE, April 30.—And now Muskogee enters claims to having the smallest Bible in all the world. A Bible 5-8 of an inch long 3-4 of an inch wide and 1-4 of an inch in thickness, said to be one of the smallest Bibles in the world, is the property of Dr. J. H. Stolper of this city. All the books of the Bible and the prophets are contained in the cloth bound volume. The work is printed in Hebrew characters, and the lines of type to the page alternate with white space the width of a line. The aid of a powerful magnifying glass is necessary to read the book. The age of the work is uncertain, having been in the Stolper family since for more than 200 years, said Dr. Stolper.

It was brought from Warsaw, Poland, by a distant relative of the owner, he stated. The book is preserved in a small brass box in the cover of which is set the magnifying glass to be used in reading the work.

Recent dispatches of the Associated Press have carried the claims of Thomas F. Cingell, printer of Blackwell, Okla., and others to possession of the smallest Bible in the world. Cingell's Bible was described as being 1 inch by 1-4 inch by 1-4 inch in dimension and it was said to be necessary to use a magnifying glass in reading it.

A Suitable Episcopal Church for Tulsa

A city-wide campaign opens today to make possible the erection in Tulsa of an adequate

Episcopal Church

Beginning tomorrow, workers for Trinity church will appeal to the citizenship for public contributions to build this crucially needed church. The campaign will continue for seven days.

A Sum of \$300,000 is Needed to Erect "Beautiful Trinity"

There is today one Episcopal church in Tulsa, the present Trinity. It was built in 1905; it seats 180 persons.

For upwards of six months 800 to 1,000 Tulsa Episcopalians have worshipped every Sunday morning in a motion picture auditorium.

This measures the need....

"Beautiful Trinity"

is designed to be one of Tulsa's most beautiful edifices. As an institution, Trinity will exert influences for enduring good in the religious and social life of the community. Its work of 16 years will be given enlarged scope for renewed and broadened service.
